

# ADARSHA SHRESTHA

Backend Developer

## About Me

I am a person who is dedicated to staying informed about emerging trends and technology. I am seeking an internship to gain hands-on experience in NodeJs where I can leverage my skills to contribute to meaningful projects.

## SKILLS

- Node Js
- Git
- Django
- SDLC
- PostgreSQL
- SQL

## MY WORKS

### Movie Ticket Booking

This system is the backend for movie ticket booking system with user authentication and validation built with NodeJS. There is also seat validation before booking seats for a movie.

### Student Information

I've developed a NodeJS application that allows CRUD operations via Postman. It's designed with a many-to-many relationship between two tables, creating a student enrollment system.

### Online Job Portal System

I've constructed a job portal using Django and PostgreSQL. To manage dependencies, I've set up a virtual environment and utilized various libraries like psycpg2 to ensure smooth database connectivity and operations.
